- Community Nursing
- Community Access
- Personal Hygiene Support
- Personal Care
- Assist–Travel/Transport
- Community Nursing Care
- Daily Tasks / Shared Living
- Accommodation / Tenancy
- Development – Life Skills
- Community Participation
- Domestic Assistance
- Group / Centre Activities

Case Study (De-Identified)

A participant with anxiety and mobility challenges received RN oversight, structured routines, and community access support.

Outcome: Improved stability, reduced anxiety, and increased participation in weekly activities.
